Common Notes for this Year 1692

Golden Number	2.
Epact	22.
Dominical Letters	C B
Shrove-Sunday	Feb. 7.
Easter-day	March 27.
Rogation-Sunday	May 1.
Ascension-day	May 5.
Whitsunday	May 15.
Trinity-Sunday	May 22.
Advent-Sunday	Nov. 27.

The Roman Account (here omitted) is till Anno 1700) 10 days before the English Account, so that our 1. day is their 11. day, and our last day their 10. day.

Each Month's first day the Romans Kalends name,
March, May, October, July six Nones claim;
The rest but four: each Month contains eight Ides,
Thence from the Kalends style all days besides:
Count backwards still, thus April's fourteenth day,
The eighteenth of May's Kalends style you may.

The Judges sit not at *Westminster*,

In { Hillary, Easter, Trinity, Michael } Term on { Candlemas, Ascension, Midsummer, All-hallows } day.

The Exchequer openeth 8 days before any Term begins, except Trinity Term, before which it doth open onely 4 days.

Vivat Rex, Floreat Lex.

Purchase of Lease or Annuities at 6, 8, 10 per Cent.

The Number of Years to be purchased.	6 p. C. Y.	6 p. C. M.	8 p. C. Y.	8 p. C. M.	10 p. C. Y.	10 p. C. M.
1	0	11	0	11	0	11
2	1	10	1	9	1	9
3	2	8	2	7	2	6
4	3	6	3	5	3	2
5	4	3	3	11	3	8
6	4	11	4	7	4	4
7	5	7	5	3	4	11
8	6	3	5	8	5	4
9	6	10	6	3	5	8
10	7	4	6	8	6	1
11	7	10	7	13	6	6
12	8	5	7	6	6	9
13	8	10	7	1	7	1
14	9	3	8	1	7	4
15	9	8	8	7	7	7
16	10	1	8	10	7	1
17	10	6	9	1	8	0
18	10	10	9	4	8	2
19	11	2	9	7	8	4
20	11	6	9	10	8	6
21	11	9	10	0	8	8

As for Example.

If you would know how many years purchase a Lease or Annuity for 14 years is worth after the rate of money at 6 in the hundred, look in the Column on the left hand for 14 the number of years to be purchased; and against that on the right hand, you will find 9 years and 3 months; so that a lease for 14 years is worth 9 years and 1 quarter of a years purchase; for that proportion 3 months bear to 12 months. But if you would know what a Lease for 14 years in being, is worth to be made up 21 years, after the rate of 6 in the hundred: do but subtract 9 years purchase and 1 quarter (the value of 14 years) from 11 years and 3 quarters (the value of 21 years after that rate) and the remainder, being 2 years purchase and an half, is the true value.

But if you would know what it would be worth at the rate of mony at 8 or 10 in the hundred, then make use of those Columns under 8 and 10 as you did that under 6 per Cent.

Tables of Use upon Use after 6 in the Hundred.

Years	The Increase of 1 l. stock by Interest upon Interest at 6 in the Hundred.				The Increase of 1 l. rent by Interest at 6 in the Hundred.				The worth of 1 l. stock rebating Interest on Interest at 6 in Hund.

31	6	1	8	2	14	15	11	3	3	3	3

The

The Use of the three former Tables of Use upon Use, according to the rate of 6 in the Hundred.

FOr the first, if you would know how much one pound stock amounts to (at Interest upon Interest) in any number of years not exceeding 31, seek the number of years in the first Column towards your left hand under this word Years, and there directly against the same, you shall see the Sum desired.

Example.

Admit it be required to know how much 1 l. stock amounts to at Interest upon Interest in 21 years, look 21 under the word Years, and directly against the same you shall see 3 l. 7 s. 11 d. 2 q. which is the Sum desired.

But suppose the Question were to find the increase of 10 l. stock in the same time, multiply the same by 10, or add the same 10 times together, which makes 33 l. 19 s. 7 d. which is also the Sum desired. And thus may you work upon any Sum desired in any of the other Columns, observing the manner as is before, as the Propositions nominated in the head of each Column do direct. And thus much for compound Interest.

ADVERTISEMENTS.

BAreman's *Spirit of Scurvygrass, famous for the Cure of the Scurvy, Gout, Dropsie, and most other Chronical Diseases, continued to be truly prepared and sold at the same House where Mr.* Bateman *dwelt, by the Person to whom only he entrusted that Secret: Sealed as formerly with the Half-Moon and Ermins to prevent Counterfeits.* Price 1. s. 4. d.

THe grand *Balsamick or Health procuring and preserving Pills, approved by the most Eminent Physicians of* England, *to be one of the safest and most pleasant Purgers; their Vertues are printed at large, prepared and sold by* John Hooker *at his House in Pauls Chain near Doctors Commons; price either 6 for 8 d. or 9 for 1 s. with printed Directions.*

The

The Use of the Table of Interest.

Find the Sum of Money in the first Column towards the Left Hand, and the time in the Head of the Table, and in that Column right against the Sum you have the Interest thereof.

EXAMPLE I.

What is the Interest of six Pounds for two Months.

Seek 6 l. in the first Column, and right against it is 0 l. 1 s. 2 d. 2 q. and so much is the Interest. Also the Interest of 80 l. for 9 months is 3 l. 12 s. And so for any other Sum, when both the just sum and just time may be both found in the Table.

But if you cannot at once find your just sum, or your just time in the Table, you must take it out at several times, and add all together.

EXAMPLE II.

What is the Interest of 237 l. 10 s. for 9 Months.

			L.	s.	d.	q.
The Interest of	200 l.	For 9 months is	9	0	0	0
	30 l.		1	7	0	0
	7 l.		0	6	1	2
	10 s.		0	0	10	0
The true Interest is			10	13	11	2

EXAMPLE III.

What is the Interest of 470 l. for a Year and 7 Months

		L.	s.	d.
400	for a Year is	24	0	0
70		4	4	0
400	for 6 M. is	12	0	0
70		2	2	0
400	for 1 M. is	2	0	0
70		0	7	0
The whole Interest is		44	13	0

Chrysostoms saying [redacted]
preaching before a company
of ministers I professe
God knowes I do not know whether
any clergy man be saued
or no you will say this
was a strange saying of
a minister to a company
of ministers their preaching
is so weighty their temptations
so many and their liues so
bad they seeme like angels
of Light but they are like
angles of darkenesse how
desirous are men to learn
gloues vpon y foulest hands
men are bettered knowne by
what they do then by what they
say for they and we not
therefore God loues not
their flatteringe words nor
fare speeches

VENUS will this year be our Evening Star from the beginning of the Year till the 23. of *Auguſt*, At which time ſhe will be in Conjunction with the Sun, and after that ſhe will be our Morning Star till the years end.

Of the Eclipſes this Year 1692.

THe viſible Eclipſes in *England*, *Scotland* and *Ireland*, this Year will be Two, One of the Sun, the other of the Moon.—That of the Moon will be upon the 28. of *July*, at 3 in the Morning, the former part whereof will only be ſeen, for the Sun will riſe before the Eclipſe be ended.——That of the Sun will be on the 27. of *December*, at half an hour after One in the Afternoon.

New Moon 7. d. 3 mor. | Full Moon 21. d. 2 [illegible]
First quart. 15. d. 6 nig. | Last quart. 28. d. 9 [illegible]

The

The Use of the foregoing Tables for the Ganging of Vessels.

If you would know the quantity that any Vessel containeth either in Wine or Ale Gallons; you must 1. Take the Diameter at the Head, and also at the Bung in the inside of the Vessel; both of them in Inches. 2. Find the number of inches at the Head in the first Column, and the number which standeth against them set down. 3. Find the number of inches at the Bung, and the number that standeth against them set down twice. 4. Add these three numbers together. 5. Multiply the Sum of these three numbers, by the number of Inches that the Vessel is long, and from the product cut off three Figures towards the right hand: so shall the Figures towards the left hand be whole Gallons, and the three Figures on the right hand are thousand parts of a Gallon.

Example.

In a Cask whose Diameter at the head is 17 inches at the Bung 26 inches, and in length 42 inches, how many Wine or Ale Gallons is contained therein?

	Wine.	Ale.
The Diameter at the head 17 in.	0 328	0 268
The Diamet. at the Bung 26 in.	0 766	0 628
The same again	0 766	0 628
Their Sum.	1 860	1 524
Multiply by 42 the length	42	42
	3 720	3 048
	74 40	60 96
The Contents of Vess. in Gall. of	78 120	64 008
	Wine.	Ale.

The Content of the Vessel is

78 Gallons and a Pint of Wine } Measure.
64 Gallons of Ale

For 125 is a pint, 250 a quart, 375 3 pints, 500 is a pottle, 625 is 5 pints, 750 is 3 quarts, 875 is 7 pints.

A Table

A Table by which you may readily set out one, or more Acres, halves and quarters in common Fields, or otherwise, the breadth of the Piece or Furlong being known in Perches, from one Perch to 25 Perches broad.

The Breadth of the Piece of Land in Perches.	1 quarter Half an of an Ac. Acre in 100 Per.		Half an Acre in 100 per.		3 quarters of an Acr. in 100 perc.		One Acre in 100 per.	
1	40	00	80	00	120	00	160	00

The length of one Acre in 100 parts of a perch.

The length of half an Ac. in per. 67

The length of 1 qu. of an Ac. in per. 50

The length of 3 qu. of an Ac. in per. 75

The length of one Acre in 100 per. parts.

The

The Use of the foregoing Table.

If you would set out any piece of Ground of any quantity of any number of perches in breadth: or by the breadth of a Furlong or Furlongs to know the quantity of an Acre, half, or quarter, or upwards: This Table will readily shew you: but it will be requisite to have a Rod or Pole of 16 feet and a half in length, divided into 10 equal parts, and each of those parts into 10 smaller parts, in all 100 parts by Nails or Notches: and such a rod or pole every Country Gentleman or Farmer ought to have: for by it, and this Table, he may set out or divide any long Close into small parcels, cast up any quantity of ground for mowing, plowing, reaping, or the like; without the help of a Surveyor. As by Example.

Example, I have a Field, the end whereof is 18 pole or perches long, and I would set out one Acre: how long must the other side of the Acre be?

Seek 18 pole the breadth of the Field, in the first Column of the Table, towards the left hand, and right against it you shall find, in the first Column 2 22, which is 2 pole, and 22 hundred parts of a pole, to make one quarter of an Acre at that breadth: in the next Column 4 44 for half an Acre, in the next Column 6 66 for three quarters of an Acre: and in the last Column 8 90 which is 8 pole, four poles length, and 90 of the Divisions: and so long must an Acre be whose breadth is 18 pole.

Also at 6 pole broad
